December 2006

To Prospective Customers of Appleseed Builders,

Summers Rubber Company engaged Appleseed Builders to construct a new Warehouse and Customer Service Center in Mansfield ,Ohio in 2006.

Summers Rubber Company has built or modified four different facilities in other parts of Ohio. We have some experience in these matters.

Without question, Appleseed Builders was the most organized, most technically competent, and most detailed construction firm we have dealt with. The building and site was accurately quoted, and proper and thorough documentation was provided. The building was built on schedule, and on budget, with adequate updates provided on a timely basis.

All promises of follow up activity were fulfilled.

To sum it up, I felt a complex task was made easy and worry free. I have complete confidence in the integrity and technical competence of Appleseed Builders and Dan Weigand. I would most certainly hire them for our next construction project.

Please feel free to contact me for any further reference.

Sincerely,

Michael P. Summers,
President
